THE HISTORY OF THE TOKEN AND MEDAL SOCIETY AND ITS JOURNAL

By Edgar Heyl

Since we were organized twenty years ago our Society has had three names and its journal three titles, but all the changes took place in the first six years. Publication of the periodical ranged from four to five issues a year through Volume 6, and it has been six issues a year (plus supplements) since then, and there have been several changes in the physical style used. Because of these factors, it was thought advisable to provide TAMS members (and library cataloguers) with a concise history of our organization and the publication of its journal.

Founded November 19, 1960, the Society bore the ponderous name, the Society of Token and Medal and Obsolete Paper Money Collectors, and the frequently used abbreviation STM & OPMC was no improvement. Late in 1961 the Society excluded the obsolete paper money field, and its name was changed to The Token and Medal Society. On April 8, 1966, as a result of incorporation, it became The Token and Medal Society, Inc.

The first title of our magazine was *Quarterly Bulletin*, and this was used through Vol. I, No. 4, December, 1961. With Vol. II, No. 1, January, 1962 it became *The Journal of the Token and Medal Society*, and this was used through Vol. V, No. 5, November, 1965. By then the popular and easily pronounced acronym TAMS was officially adopted, and, with Vol. 6, No. 1, January, 1966 the title became the one still in use, *TAMS Journal*.

The format of the journal from the beginning has been maintained at about 8" x 10" with no significant variations. From Vol. I, No. 1, April, 1961 through Vol. III, No. 3, June, 1963 each issue consisted of unbound sheets punched with holes so that they could be put in a three-ring binder.

From Vol. III, No. 4, September, 1963 through Vol. V, No. 5, November, 1965 the issues were in a magazine format with a stapled binding, and these too were punched for binder inclusion. The covers were of the same paper stock used for the text, but with Vol. 6, No. 1, January, 1966 flexible board covers of the type still used were adopted.

The text of the first five volumes was reproduced by the offset process from typed copy, but many illustrations were included. Beginning with Vol. 6, No. 1, January, 1966 the text was typeset.

THE INDEX

Each article is indexed under the author's name, and also by the first significant word of the title, rather than by the A, An or The with which it might have begun. The content of the article provided the direction for further indexing.

(Entire contents copyright 1981 by the Token And Medal Society Inc. Reproduction in whole or in part without specific written permission prohibited.)

Thus it may have related to a token or medal, or classes of such, their makers and areas of origin, special subjects, types of materials used, and many other approaches, and so the article was indexed under every applicable category. Of course, all articles on tokens and medals were also listed under these two general headings.

In addition, when an article dealt with a city, indexing was under both the city and its state. In the case of foreign exnumia, listing was also under the country of origin. Many of the article subjects were general in nature and, in such instances, enough information was secured from the text to provide adequate coverage.

An example of the listings used for one article will show the nature of the index. For each entry the location is given by volume and page number, Roman numerals for the first five volume numbers, and Arabic for the rest.

For each volume the pagination is continuous from the first to the last number. However, beginning with Vol. 16, No. 2, April, 1976 and continuing through Vol. 20, No. 6, December 1980, the covers were included in the pagination but, of course, they contain none of the text.

Only one error was noted and this was in Vol. 17, No. 5, October, 1977. The first page of the text was 177, and it should have been 179.

When a supplement came with an issue it is listed as in this example.

Richard B. Dusterberg - Cincinnati, Mother of Expositions 20, No. 2, Part II.

These supplements had their own pagination, so the listings of all are given in the style of the above. The one exception to this was the supplement Vol. 8, No. 3, Part II, June, 1968 which was included in the pagination of that volume.

In order to locate any index entry in the journal, the listing below shows for each volume the pages of each issue.
